### **BCP Local Plan Consultation**

Dear Mr. Perrins,

Firstly, thank you for accepting our submission as promised by 25<sup>th</sup> November. Thank you also for taking a meeting with our President and colleagues recently. The discussion has greatly helped and influenced our submission.

We have based our report on the outline given in your invitation for comments. Our responses are brief and serve to flag up the issues that concern the Association the most. We will flesh out the points in more detail as your process continues.

I should stress that the Association is very keen to engage in the process and I should welcome some guidance, or a programme from you, as to how that can be best achieved. The Association will appoint a team leader and our input will be coordinated by that person.

We look forward to working alongside the BCP Council to delivering the Vision set out in the BCP Local Plan. Having consulted the residents of the Branksome Park and Canford Cliffs area, we believe the issues addressed in this document will be invaluable in helping the BCP Council achieve its Vision over the next 20 years.

Meanwhile, please confirm safe receipt of our paper.

Yours sincerely,

Adrian Wardlow  
Chair of Branksome Park & Canford Cliffs Residents' Association
